SUMMARY

Full Stack Developer with 2.5+ years of experience designing and shipping production web applications, REST APIs, and CRM-driven business automation using Laravel, CodeIgniter, Core PHP, and Next.js. Currently building fleet-management and government onboarding platforms at Softlinks FZCO (Dubai), after two years delivering real estate, legal-tech, fintech, and e-commerce platforms for UK, Australian, and Dubai-based clients at Creative Tech Solutions — including SuiteCRM customizations, loan-management CRMs, and payment gateway integrations. Comfortable owning a feature end-to-end: database design, live debugging, and production deployment.

EXPERIENCE

Full Stack Developer · Softlinks FZCO
Jun 2026 — Present | Dubai, UAE (Remote)

- Own the driver and dispatch experience for Zulal, a fleet-management CRM that assigns trucks to drivers across Dubai and tracks routes, fuel and traffic fines in real time.
- Built the driver-facing mobile app experience — push notifications and duty-shift scheduling — kept in sync with a web-based admin panel used by dispatch teams.
- Contributing to Esaad, a Dubai Government platform that onboards merchants across multiple portals, routes submissions through government approval, and manages promo codes and offers across outlets.

Full Stack Developer · Creative Tech Solutions
Oct 2024 — Jun 2026 | Islamabad, Pakistan

- Delivered production platforms end-to-end for UK, Australian and Dubai-based clients — reproducing reported bugs, deploying to live hosting, and owning post-launch support.
- Built Pacitti-Jones, a SuiteCRM + CodeIgniter operations system for a UK real estate agency, and a Laravel CRM portal for Mint Financial Group's loan-management pipeline.
- Shipped Kanooni, a Next.js legal-consultation platform, and Festival Lights, a pixel-perfect WooCommerce store for an Australian client.
- Customized SuiteCRM using Core PHP — custom modules, Logic Hooks, and Entry Points — for cross-project business automation.

Web Engineer · Elexoft Technologies
Mar 2024 — Sep 2024 | Islamabad, Pakistan

- Started my development career here — translated Figma designs into responsive interfaces using HTML, CSS, JavaScript and Bootstrap.
- Shipped my first end-to-end project: an HRM system for a real estate client covering employee check-in/check-out, leave requests and salary management with a full admin dashboard.
- Built backend features with Laravel and Eloquent ORM, and dynamic frontend interactions with Vue.js, jQuery and Ajax-based API calls.

KEY PROJECTS

Zulal — Fleet Management CRM
2026 · Softlinks FZCO

Fleet-management CRM for a Dubai trucking operation — truck-to-driver assignment, live route/fuel/fine tracking via driver app synced to an admin panel.

Laravel · MySQL · REST APIs

Esaad — Merchant Onboarding & Offers Platform
2026 · Softlinks FZCO

Dubai Government platform onboarding merchants across multiple portals with government approval workflows and a promo codes/offers system for outlets.

Laravel · MySQL · Dubai Pay

Kanooni — Online Legal Consultation Platform 2025 · Creative Tech Solutions

Next.js platform connecting users directly with lawyers for remote consultation, with separate user/lawyer dashboards and Dubai Pay, Stripe and bank-transfer payments.

Next.js · React · Dubai Pay · Stripe

Pacitti-Jones CRM Oct 2024 — Jun 2026 · Creative Tech Solutions

UK real estate operations system — SuiteCRM + CodeIgniter handling viewings, valuations, audit trails and reporting, with automated email-to-lead cron jobs syncing Zoopla/Rightmove.

SuiteCRM · CodeIgniter · Laravel · Vue.js · WordPress

Mint Financial Group — Loan Management CRM 2025 · Creative Tech Solutions

WordPress site paired with a Laravel CRM turning loan-application forms into leads, with document collection and verification workflows.

Laravel · WordPress · MySQL

Festival Lights Experts — eCommerce Store Feb – Apr 2025 · Australia · Creative Tech Solutions

Pixel-perfect WordPress/WooCommerce store with product variations, Stripe payments, and admin order/stock management.

WordPress · WooCommerce · Stripe

Bookkeeping Hub Pro 2025 · Creative Tech Solutions

Next.js agency website with online appointment booking and an AI-powered chat assistant for client queries.

Next.js · React · Node.js

Attendance & HRM System Mar – Jun 2024 · Elexoft Technologies

Role-based HRM system — check-in/check-out, leave requests, salary management, and real-time WebSocket chat with an advance-fund workflow.

Laravel · MySQL · Bootstrap 5 · WebSockets
